Price: 99,00 €

C.P.Protect[®] and **C.V.Protect[®]** contain a high number of natural bioactive substances. These precious substances, together with the wide range of aminoacids, vitamins, minerals, and trace elements, form a unique formula of nature to strengthen the endurance and the power of resistance. **C.P.Protect[®]** / **C.V.Protect[®]** improves the endogenous "oxidation-defence" and provides an increase in efficiency and energy helping to maintain your well-being. **C.P.Protect[®]** / **C.V.Protect[®]** is an ideal herbal daily supplement.

VitaGreen's Omega-3[®] / **VegiPearls[®]**: Experts agree that our food no longer contains the human's daily requirement of essential Omega-3-fatty acids (EPA, DHA). The increased need of Omega-3-fatty acids in children and teenagers, as well as pregnant and breast-feeding women, can be kept in balance by daily supplements. Adding **VitaGreen's Omega-3[®]** to your daily diet helps provide an important and indispensable contribution to maintain and recover your well-being! Replace your old "rancid" cell fat with fresh Omega-3-fatty acids from the ocean.

C.G.F.[®] (Chlorella pyrenoidosa Extract) and **C.V.E.[®]** (Chlorella vulgaris Extract) are highly concentrated hot-water Chlorella extracts. The extraction and concentration of the effective nucleic acids from Chlorella's nucleus in combination with precious vegetable proteins such as aminopeptidasen, phytohormons, and glutathion-like substances, makes **C.G.F.[®]** / **C.V.E.[®]** a supplement of highest quality. The wide range of amino acids and secondary plant substances rounds off the unique natural formula. **C.G.F.[®]** / **C.V.E.[®]** contains the fresh water algae Chlorella's ancient natural wisdom of survival.
